

What is claimed is:

1. A flame retardant composition comprising 1-99 weight parts of a salt of piperazine and an inorganic compound selected from among piperazine phosphate, piperazine pyrophosphate and
5 piperazine polyphosphate, or a mixture of two or more of these piperazine salts (ingredient (A)), 99-1 weight parts of a salt of melamine and an inorganic compound selected from among melamine phosphate, melamine pyrophosphate and melamine polyphosphate, or a mixture of two or more of these melamine
10 salts (ingredient (B)) (wherein, the sum of ingredient (A) and ingredient (B) is 100 weight parts), 0-50 weight parts of an arbitrary ingredient (ingredient (C)), and 0.01-20 weight parts of a silicone oil having a viscosity at 25°C of 5000mm²/s or less(ingredient (D)) which is added to the composition
15 comprising the aforementioned ingredients (A)-(C) and treats them.
2. The flame retardant composition according to claim 1, wherein the salt of piperazine and an inorganic compound (ingredient (A)) contains 80 weight percent or more of
20 piperazine pyrophosphate, the salt of melamine and an inorganic compound (ingredient (B)) contains 80 weight percent or more of melamine pyrophosphate, and the arbitrary ingredient (C) is contained to the extent of 10 weight parts or less relative to 100 weight parts of the total amount of ingredient (A) and
25 ingredient (B).
3. The flame retardant composition according to claim 1 or 2, wherein the silicone oil (ingredient (D)) is methylhydrogen polysiloxane.
4. The flame retardant composition according to any of claims

1-3, wherein the silicone oil (ingredient (D)) is a mixture of a silicone oil having only a methylhydrogen polysiloxane structure with a silicone oil whereof at least part has a dimethyl polysiloxane structure.

5 5. The flame retardant composition according to any of claims 1-4, wherein the silicone oil (ingredient (D)) has a viscosity at 25°C of 1000mm²/s or less.

6. A flame retardant polyolefin resin composition obtained by blending 3-70 weight parts of the flame retardant composition
10 according to any of claims 1-5 with 100 weight parts of a polyolefin resin.

7. A flame retardant polyolefin resin composition molded product obtained by molding the flame retardant polyolefin resin composition according to claim 6.
